

PAID INTERNATIONAL UNDERGRADUATE RESEARCH OPPORTUNITY SUMMER 2021

Philippines International Research Experience for Students (Ph-IRES)

Spend eight weeks at Silliman University (SU) in the Republic of the Philippines conducting independent research with SU mentors. Projects will explore marine fishes and the human activities affecting their evolution.

- Students will live in Dumaguete, Philippines for 8 weeks and work with faculty mentors from Silliman University
 - Summer stipend of \$5000
 - Travel costs to/from Philippines and housing provided
- Travel to annual SACNAS National Diversity in STEM Conference to present summer research
