Re: Affiliate Graduate Faculty at Florida Atlantic University

Oct. [REDACTED]

Dear Dr. [REDACTED],

I am writing to express my interest in serving on graduate student committees through the Environmental Science Program. To that end, I am requesting affiliate graduate faculty status. I look forward to my involvement with Florida Atlantic University.

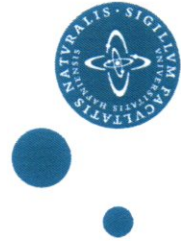

Thank you,

[REDACTED]

Letter of interest

Dear [REDACTED],

With this letter, I would like to express my interest in extending my collaborating with Prof. [REDACTED] group on seagrass ecology with focus on Florida Bay seagrass systems and the die-back events recorded in this exciting system over the past decades. We share interest in seagrass eco-physiology and my expertise in application of microelectrodes under challenging field conditions is likely to benefit [REDACTED] students and postgrads. I would be happy to participate as a member of [REDACTED] graduate student committees as an FAU affiliate faculty member with graduate and IB program faculty status.

[REDACTED] and I already have a proven track record of collaboration and a shared publication in *Estuarine, Coastal and Shelf Science* on "Sulfide intrusion in the tropical seagrasses *Thalassia testudinum* and *Syringodium filiforme*".

Our collaboration is bridging research between the United States and Denmark and will provide international research experience for graduate students in [REDACTED] group at FAU as well as for my group of students at the University of Copenhagen.

Thank you for your consideration.

Yours sincerely,

[REDACTED]
