

The 2017 John Nambu Memorial Summer Research Experience for Undergraduates (REU) Program

Full-time research opportunities await undergraduate students this summer (May 15 – July 21, 2017). These are *exciting and once-in-a-lifetime* chances to perform research in sophisticated neuroscience and behavior-oriented labs while expanding your scientific expertise. Several labs, including those of Drs. Ken Dawson-Scully, Tanja Godenschwege, Kailiang Jia, Greg Macleod, Rod Murphey, Bob Stackman, Alex Keene, and Randy Blakely (among others) are seeking an additional undergraduate student this summer to perform research focused on neuroscience and behavior. Please visit our web site <http://www.fau.edu/jlsi/faculty/index.php> to find a professor whose research interests you. The successful undergraduate candidates will work full-time in the lab and spend at least one hour per week with the fellow undergrads in the program and Dr. Cathy Trivigno as a mentor. Students often complete a thesis through the program. The program runs full-time during the summer, with the option of continuing research into the academic year. A summer stipend is included.

Sophomores and Juniors are especially encouraged to apply. In order to submit your application: complete the second and third pages and forward with your CV, personal statement and (unofficial) transcript to Dr. Cathy Trivigno at trivigno@fau.edu by **March 1, 2017**.

Did you know?

Two Research Giants have built new facilities on FAU's Jupiter campus:
The Scripps Research Institute and
Max Planck Florida Institute for Neuroscience.

FAU has a renovated research building for neuroscience in Jupiter.

YOU can do research in this growing neuroscience community!

FAU's Life Science Initiative in Jupiter unites scientists in research and training programs in neuroscience from the Charles E. Schmidt College of Science with the Harriet L. Wilkes Honors College.

The John Nambu Memorial Summer Research Experience for Undergraduates (REU) Program

Application

Z# _____

Last name: _____ First name: _____ MI: _____

Home Address: _____

City: _____ State: _____ Country: _____

Cell Phone #: _____ email address: _____

Please indicate below the name(s) of the neuroscience and behavior-oriented faculty in which you have interest:

Please indicate which campus that you would consider working on:

_____ Jupiter

_____ Boca Raton

If you have specific skills applicable to biological research (e.g., laboratory experience, photomicrography, video recording, use of computer packages, statistics), please indicate them below:

Career goals after obtaining undergraduate degree:

Membership in professional and honor societies; honors and awards:

I certify that the information given in this application is complete and accurate.

Signature:

Date: _____

Send this application, your CV, personal statement and (unofficial) transcript to Dr. Cathy Trivigno
trivigno@fau.edu

Submission Deadline: March 1, 2017.
