

**You're electric,
Valentine!**

Stingrays have a 6th sense to detect electric fields- Ampullae of Lorenzini

**You're shrimp-ly the
best, Valentine!**

Shrimps are important food for turtles and octopuses.

**You're Ink-redible,
Valentine!**

Octopus ink is made of mucus & the pigment melanin.

**You're a RAY of
sunshine, Valentine!**

Florida's coastal waters are an important habitat for stingrays.

**My heart skips a beat
for you, Valentine!**

The octopus's heart skips a beat when they are swimming.

**I'll swim miles for you,
Valentine!**

Blacktip sharks have long migrations along the eastern United States.

**Keep calm and
stay sea-sational!**

Seagrass is a true plant with stems, roots, leaves, & flowers.

**LET'S CUTTLE,
VALENTINE!**

CUTTLEFISH, OCTOPUS, AND SQUID BELONG TO AN ANIMAL GROUP CALLED CEPHALOPODA.

Happy Valentine's Day!
You are fin-tastic!

There are over 500
species of sharks.

Roses are red.
Violets are blue.
Turtle shells **aren't** green,
but **I love you.**

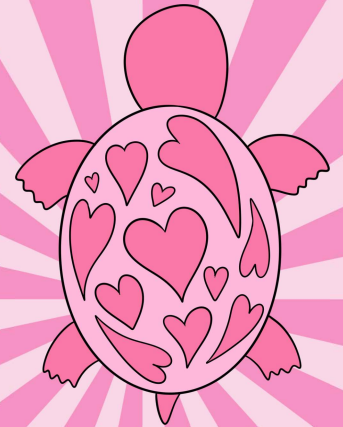

Adult green sea turtles
are herbivores! Their
plant-based diet makes
their fat yellow-green.

Let's **shell-ebrate** how
amazing you are this
Valentine's Day!

A sea turtle's shell is
made of keratin, the same
material as human nails!

I love you with every
piece of my heart!

Turtles have a 6
chambered heart.

**My love for you is as
deep as the ocean!**

**Leatherback sea
turtles can dive as
deep as 1200 meters.**

**You are turtley
the one for me!**

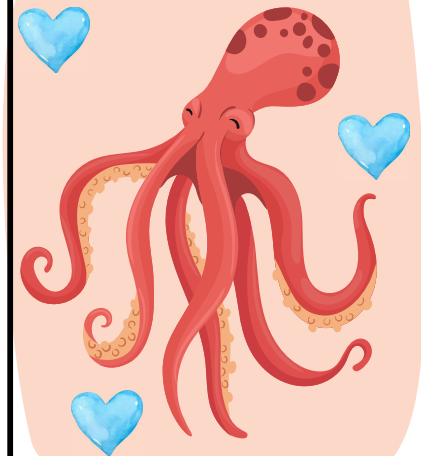

**Sea turtles are solitary
until it is time for
them to mate!**

Roses are red,
Seagrasses are green,
I'm so lucky to have
you as my queen!

Seagrasses provide habitat for
many invertebrates, including
queen conchs!

Happy Valentine's Day
with 3 times the love!

Octopus have 3 hearts!
